

Approaches to policy formulation: The concept of Mitigation and Adaptation

Dr. Martin Dahinden, Ambassador (ret.)
Member of the Board of the WDA

Policies are rules, principles, guidelines or frameworks to achieve long term goals

Education, Infrastructure
Sustainable Development Goals
Macroeconomic Yields

How can we get the demographic drivers in the picture and derive policies from it?

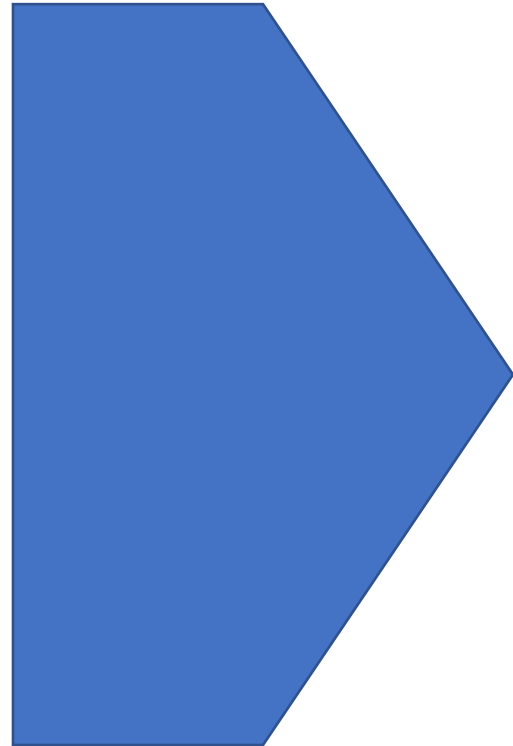

The **Concept of Mitigation and Adaptation** puts the demographic drivers and effects powerfully at the center of analysis and recommendations.
